Three Corners Concept

Any successful engineering project is subjected to the theory of The Three Constraints, the constraint is the factor that affects the mechanism of the project implementation, Therefore, for the success of any engineering project, there must be engineering constraints carried out by the engineering office, and these constraints are innovative and result from research, scientific study, practical experience and are identical to engineering theories and the owner is satisfied with them and appropriate with the project itself. Therefore, with engineering eyes, we see Three Corners of the project are (OWNER - PROJECT - CONSULTING OFFICE).

Three Corners office, is a consulting office who is a part of a successful project in co-operation with the owner who wants to make that project.

فلسفة تريا كورنرز

اي مشروع هندسي ناجح يخضع لنظرية الثلاثة قيود والقيود هو العامل الذي يؤثر على آلية تنفيذ المشروع لذلك لنجاح اي مشروع هندسي لابد ان يكون هناك قيود هندسية يقوم بها المكتب الهندسي وتكون هذه القيود مبتكرة ونتيجة عن البحث والدراسة العلمية والخبرة العملية وتكون مطابقة للنظريات الهندسية ويرضى عنها المالك وتكون ملائمة للمشروع نفسه لذلك يعين الهندسة نرى ثلاثة اركان للمشروع (المالك - المشروع - المكتب الاستشاري).

مكتب تريا كورنرز هو مكتب استشارات هندسية وهو جزء من مشروع ناجح بالتعاون مع مالك يزيد انجاز هذا المشروع.

Our Services

A- Engineering Consultations

B- Integrated Designs (Residential - Administrative - Industrial, etc.)

- 1- Architecture Drawings
- 2- Civil Drawings
- 3- Mechanical, Electrical & Plumbing Drawings

C- Applying For Licence

D- Project Supervision and Management (Residential - Administrative - Industrial, etc.)

E- Technical Office Services (for Constructors and Consulting Offices)

- 1- Preparing Working Drawings
- 2- Preparing BOQ (Concrete, Iron, etc.)
- 3- Writing Contracts

F- Design Decorations And 3D (Villas, Apartments, Facades, etc.)

فهومنا

أ- الإستشارات الهندسية

ب - تصميم مشروعات متكاملة
(سكني - إداري - صناعي، إلخ)

١ - تصميمات معمارية

٢- تصميمات إنشائية

٣- تصميمات كهربائية وميكانيكية وصحية

ج - إستخراج تراخيص البناء

د - الإشراف علي التنفيذ وإدارة المشروع
(سكني - إداري - صناعي، إلخ)

هـ - خدمة المكتب الفني
(لشركات المقاولات والمكاتب الاستشارية)

١- تجهيز الرسومات التنفيذية

٢- أعمال الحصر ودفتر الكميات: خرسانة - حديد، إلخ

٣- كتابة العقود

و - تصميمات الديكور والثري دي
(للفيلات - العمارات - الشقق - الواجهات، إلخ)
